# EQUITONE

Fibre cement facade materials

Discover our new EQUITONE [natura] WHITE  
Inspired by nature's soft, elegant colour palette,  
and perfectly matched to EQUITONE's subtle  
and authentic fibre cement shades.

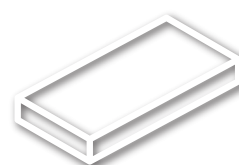

NEW

Colour:  
EQUITONE [natura] N164

# EQUITONE [natura]

EQUITONE [natura] is a through-coloured facade material. Every EQUITONE [natura] panel is unique, subtly displaying the raw texture of the core fibre cement material.

The material comes in a large panel size and can be transformed into any size or shape in the workshop or on site. No matter what design options you explore, EQUITONE's through-coloured nature guarantees crisp, monolithic details.
